OUR DESIGN

We will present our Design

Introduction

Development of a website dedicated to the acquisition of Retro Games.

Welcome To Presentation

We are A.C.E.S team and we will present a Retro Game Website Design.

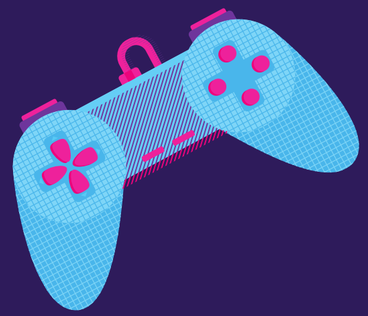
Our Team

FARID

- Lead Website Designer
- Front End Expert

NATE

- Technical Content Strategist
- Back End Expert



PROBLEMS & SOLUTIONS

Problem 1

Customers often encounter challenges when seeking retro games, and upon discovery, they may encounter significantly inflated prices compared to their original values.

Solution 1

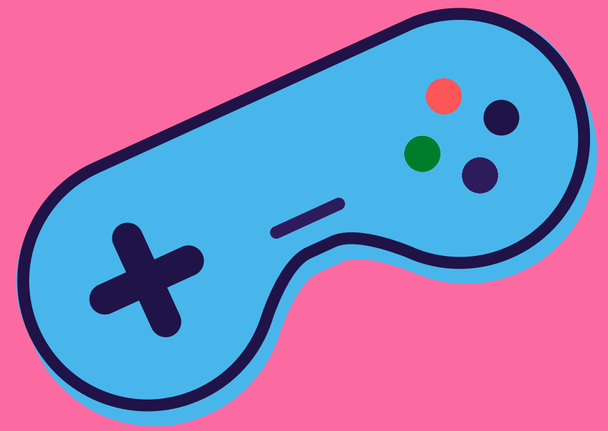
Our website offers exclusive information sourced from the USA, enabling customers to find their preferred items and secure the best deals.

Problem 2

Small boutiques often grapple with the formidable challenge of promoting and selling their exquisite goods, contending with limited visibility and fierce competition from larger, more established retailers.

Solution 2

Our website provides impartial information on all establishments, ensuring fairness regardless of size, and showcasing top-rated selections with competitive pricing.



Our Services

COLLECTING & FILTERING

Collects data from us and filter it

ANALYZE & SAVE TO DB

Analyze the market and save info to database

DISPLAY PRICES & LOCATION

Display all prices and location to find the best that fit a customer

SELL PRODUCT

Stimulate customer purchases by showcasing the best deals available

Timeline

WEEKS 1 - 3

- Project Proposal
- Use Cases
- Prototype

WEEKS 4 - 6

- Database Design
- Result Presentation
- 10 Week Gantt Chart

WEEKS 7 - 9

- Class Diagrams
- Heuristic Evaluation
- 20 Week Gantt Chart

WEEK 10

- Final Presentation
- Final Wiki

Gantt Chart

Final Gantt Chart A.C.E.S.

Essential Elements

Strategic Planning

We prioritize strategic planning to ensure every step aligns with our customers' long-term goals and vision.

Ongoing Support

Our support continues post-implementation, addressing evolving needs for smooth operations.

Technology Implementation

Leveraging Visual Studio Code 2022, we implement cutting-edge technology solutions tailored to the requirements of our customers.
